## ROAD WHEEL AND TYRE

The wheels and tyres of the following specifications have been established.

**ROAD WHEEL AND TYRE**

| Item | | 1100 | 1300 | 1500 |
|---|---|---|---|---|
| Wheel | Type | Steel type<br>Aluminium type* | Steel type<br>Aluminium type* | Steel type<br>Aluminium type* |
| | Size | 14 × 5.5J<br>15 × 6J* | 14 × 5.5J<br>15 × 6JJ*<br>16 × 6.5* | 15 × 6J<br>16 × 6.5J* |
| | Amount of wheel offset (mm) | 46 | 46 | 46 |
| | PCD (mm) | 114.3 | 114.3 | 114.3 |
| Tyre | Size | 175/65R14 82T<br>195/50R15 82H* | 175/65R14 82T<br>195/50R15 82H*<br>205/45R16 83H* | 195/50R15 82H*<br>205/45R16 83H* |

*NOTE: The * mark indicates optional item.*

*NOTE: PCD (Pitch Circle Diameter) indicates the pitch circle diameter of the wheel installation holes.*

## SPARE WHEEL AND TYRE OR TYRE REPAIR KIT

The spare wheel and tyre and the tyre repair kit have been established as options.

**SPARE WHEEL AND TYRE (OPTION)**

| Item | | Specifications |
|---|---|---|
| Spare wheel | Type | Steel type |
| | Size | 15 × 4T |
| | Amount of wheel offset (mm) | 46 |
| | PCD (mm) | 114.3 |
| Spare tyre | Size | T115/70D15 |

*NOTE: PCD (Pitch Circle Diameter) indicates the pitch circle diameter of the wheel installation holes.*

## TYRE REPAIR KIT (OPTION)

The tyre repair kit is established for easy emergency-fixing of flat tyres.

- The tyre repair kit consists of the repair set and the tyre compressor, and is installed on the luggage room.
- The repair set consists of the bottle of sealant, the hose, and the valve remover.
- The power of compressor is exclusive to the cigarette lighter (DC 12 V).
- The compact kit weighs less than a spare tyre resulting in the effective space use.
- Before the tyre for which the tyre repair kit was used is repaired or replaced, the repair agent remaining inside the tyre must be removed.
- When the hole of the flat tyre can be identified, the flat tyre can be repaired ordinarily. Otherwise, replace the tyre with a new one.
